Hi Kelly,

Ex. 6 Personal Privacy (PP)

I think right now we will be putting in in progress I should be able to get something in by the 13th, but I'm working on different refinements to the dietary input. I'm focused on the poultry uses and was hoping for some help on that. I want to make sure the application rates and slaughter intervals that were used in the previous study are still reflective of what is on the label. Could you send me the use table so I can compare?

Thanks,

David

Hi David,

I put together some bullets for this for TCVP. Mike's read over them and ok'd them. The only thing I don't have is a range for the dietary cancer risks. If you don't have anything yet, that's fine, but I thought I'd check to see. We can always say something like "in progress", or just wait to fill it in. I don't think they need this till the 13th if you need that additional time.

Thanks! Hope you are doing well.

~Kelly

Importance: High

Hi all,

We are reaching out to the TCVP team in preparation of Program Review scheduled for April 30 to ask for information in reviewing/completing the attached draft TCVP Fact Sheet. Please see Jocelyn's email below for details about this quarter's Program Review. We understand that the human health DRA is still in development, so just provide what works best for a summary of those risks.

As you know, we are awaiting a decision following February's oral arguments from NRDC's petition, so things could change at any time. For now we are moving forward with the intention of issuing the revised human health DRA in Q3. If you have any questions, just let me know.

Thank you,
Trish

Dear PRD,

The base file for the Q3 Fact Sheets and Summaries for the OCSPP IO is available in SharePoint (see link below). If you haven't heard already, Program Review will be a little different this quarter. Instead of creating a separate PowerPoint slide deck, we will be using the fact sheets we develop for the OSCPP IO to brief Rick. Since the DRA Program Review is scheduled for Thursday, April 30th, we are asking that you complete the DRA fact sheets and summaries first (see timelines below). Please work with your TLs/BCs to determine which cases need fact sheets versus summaries. For the DRA fact sheets, please reach out to HED and EFED as soon as possible to give them enough time to work on their bullets.

Please follow the example entries in the SP file. Please let us know if you have any questions, and thanks in advance for your patience with this new process.

Timeline for DRA Fact Sheets and Summaries

Monday, April 13th – TL review/BEAD senior scientist review

Thursday, April 16th – BC Review

Monday, April 20th – Division Director Review

Timeline for PID/ID Fact Sheets and Summaries

Friday, May 1st – TL review/BEAD senior scientist review

Wednesday, May 6th – BC Review

Friday, May 8th – Division Director Review
